

# Solar Over Louisville

Louisville Metro Government's **Mayor's Office of Sustainability** has partnered with the **Kentucky Solar Energy Society (KYES)** and the **Louisville Sustainability Council (LSC)** to launch the 2023 Solar Over Louisville solarize program! Solar Over Louisville makes going solar easy by connecting participants with vetted and trustworthy solar installers, providing a step-by-step walk-through of the solar installation process, and helping participants access discounted rates on solar.

Going solar will help you

- Reduce your energy bills
- Potentially increase your property's value
- Support local solar jobs, and
- Help Louisville meet its goal of using 100% clean energy community-wide by 2040!

On March 2nd, Louisville Mayor Craig Greenberg announced that **Solar Energy Solutions** and **Icon Solar Power** have been selected from a competitive pool of applicants as the designated vetted solar installation partners for the 2023 Solar Over Louisville campaign! By connecting Solar Over Louisville participants with the vetted installers, we are eliminating the hassle for residents to vet an installer themselves and also helping them access a great wholesale **discount of 15-23%**. In addition, Solar Over Louisville participants may also be eligible for a **30% tax credit** through the federal Inflation Reduction Act.

In 2022, Solar Over Louisville installed solar on over 90 homes. Join this growing community today! To learn more about the program, sign up, and register for an upcoming free workshop, please visit: [www.100PercentLou.com/2040](http://www.100PercentLou.com/2040) or scan the QR code above!
